

## 2015 Christiane Howey Rising Scholar Award

Proposals for the 2015 Christiane Howey Rising Scholar Award will be accepted before October 31, 2014 and reviewed prior to the publication of the Winter 2014 issue of Tracker News. The award recipient will be notified in late December to schedule a production slot. Proposals will be judged by an internal committee. Applicants are encouraged to include an educational component in their research but this is not required. This award is intended to provide researchers who are starting out their careers with the means to get their projects off the ground. It will provide the recipient with five transmitters of his/her choice. Proposals should include an outline of the project indicating the scope and expected outcome. Please include a timeline and let us know what model of transmitter you are interested in using. We are looking for a maximum of 5 pages. The recipient will be responsible for any Argos or GSM data distribution costs. For more information please email [support@microwavetelemetry.com](mailto:support@microwavetelemetry.com) or visit our website.

### INTERNATIONAL USER CONFERENCE ON ARGOS WILDLIFE APPLICATIONS

NOVEMBER 18-20, 2014  
NATIONAL AQUARIUM  
BALTIMORE, MD USA

CLS America has announced it will hold an International User Conference on Argos Wildlife Applications.

**When:** November 18-20, 2014

**Where:** The National Aquarium in Baltimore, MD USA.

For more information and to register visit [www.clsamerica.com](http://www.clsamerica.com)

Registration is now open!

Space is limited.

"The International User Conference on Argos Wildlife Applications will showcase the incredible breadth of wildlife science that the international Argos satellite tracking system has enabled for decades, examine the evolving technology and capabilities of the Argos system, and explore the endless possibilities for wildlife monitoring that are within our reach for the future."

- CLS America website

## Reminders

We refurbish avian transmitters during the months of August through February. Please return your recovered PTTs to us as soon as possible to ensure we have sufficient time to complete their refurbishment before new production ramps up in the spring.

We require a signed data distribution agreement for each order of GSM transmitters. Orders will not be shipped without a signed agreement on file.

## Bits & Pieces

We are now able to accept credit card payments for invoices.

Please double check your transmitter label info on your production form.

Please send us your 2014 published papers so we can update our online library!
